A TIMESAVING TIP

Instead of calling Information, you'll usually save time by looking in the directory where most numbers are listed. Information operators must look up the number, just as you do. By doing it yourself, you save the time it takes to call Information. If it is necessary to call "Information," be sure to tell her in which town the telephone number is l number not in the directory, we'd sug future use. A personal telephone dire purpose without charge from the bus

You May Telephone Telegrams

You may telephone telegrams, cablegrams or radiograms to the Western Union Telegraph Company.

Charges for telegrams, cablegrams or radiograms placed by telephone will appear on your monthly telephone bill by arrangement with Western Union. On messages telephoned from public coin box telephones, you will be requested to deposit the telegraph charges in the coin box.

About Your Telephone Number

Occasionally, in the past, it has been necessary to change the telephone numbers of some of our subscribers. It may, likewise, be necessary to change some numbers in the future.

We're sorry we can't say to you, "We'll never have to change your telephone number." As a matter of fact, we don't like to change them and won't do it unless it is absolutely necessary.

THE COVER DESIGN

From barren sand dunes, Gary has grown in fifty years to a city of vast industry, the home of more than 160,000 people.

During the week of June 10 to June 17, 1956, Gary celebrates its 50th Anniversary with a tremendous Golden Jubilee Celebration—open houses in industry, an industrial and business exposition, parades, a nightly historical pageant, and many other events.

The Golden Jubilee Committee conducted an Official Seal contest among Gary school children in which 397 participated. The winning entry, shown in the circle on the front cover of this directory, was the work of Larry Pavol, a Wirt High School student.

Illinois Bell operators get many urgent appeals for aid. People in distress throughout the company's territory call them for help hundreds of times a week.

When trouble strikes, many people turn automatically to the telephone operator—their only link with the outside. Through training and instinct, the operator acts fast in emergencies. Many times her speed and initiative have meant the difference between life and death.

It's comforting to know she's always within arm's reach when you need her—not only with operator service, but with dial service, too. Her reassuring voice will answer whenever you dial "operator."

INDIANA STATE LAW CONCERNING USE OF PARTY LINES IN CASES OF EMERGENCY

A Statute enacted by the 1955 Indiana Legislature makes it unlawful to misuse party line telephone service in cases of emergency. An emergency is defined in the law as "a situation in which property or human life is in jeopardy and the prompt summoning of aid is essential." The law, in part, reads as follows:

Section 2. It shall be unlawful for any person using a telephone on a party-line to refuse to yield such party-line, when requested to do so, to any person who wishes to place an emergency call from a telephone on such party-line. Any person who violates the provisions of this section shall be guilty of a misdemeanor and upon conviction shall be fined in any sum not exceeding twenty-five dollars to which may be added imprisonment in the county jail for any period not exceeding ten days.

Section 3. It shall be unlawful for any person to obtain the use of a telephone on a party-line by falsely alleging the existence of an emergency. Any person who violates the provisions of this section shall be guilty of a misdemeanor and upon conviction shall be fined in any sum not exceeding twenty-five dollars to which may be added imprisonment in the county jail for any period not exceeding ten days.

AT YOUR SERVICE

Your telephone account is handled by a young lady in our business office, called a Service Representative, whose job is to make sure your telephone service is satisfactory at all times. Whether you're moving your telephone to a new location, or have a question about your bill, or about your telephone service, she'll be glad to help you. If you're moving or discontinuing service, please let us know as far in advance as possible.

If you prefer to transact business in person, we shall be glad to see you at the Business Office. Hours are from 8 A.M. to 5 P.M. Mondays through Fridays.

For your convenience, an after hours deposit box is available near the door for paying bills when the office is closed.

How to Use a DIAL TELEPHONE

TO DIAL A CALL

1. Look in the directory for the correct number.

2. Listen for the "dial tone." This steady humming sound tells you that the dial equipment is ready for your call. (From a coin telephone, see next column.)

3. To dial any figure, place your finger firmly in the opening for the particular figure. Pull the dial around until your finger strikes the metal finger stop. Then release the dial and allow it to return to rest without interference.

4. To dial from one **TU**rner or **YE**llowstone telephone to another, **do not** dial letters of exchange name. Dial only the five figures of the number.

5. When calling to **TU**rner or **YE**llowstone telephones from Out-of-Town, use the entire number including prefix (i.e. Dial **"TU"** or **"YE"** plus the five digits of the telephone number or give the prefix "**TU**rner" or "**YE**llowstone" to the Operator), EXCEPT from Merrillville telephones dial code "4" followed by ONLY the five digits of the telephone number.

For information on out-of-town calls, see pages 3–6.

If You Dial in Error

In case your finger slips while dialing

Or if you've dialed a wrong digit—

Replace the receiver . . .

Wait a few seconds . . .

Lift the receiver to your ear and when you hear the hum of "dial tone",

Dial the complete number.

Answering Incoming Calls

Answer all calls promptly.

If the person calling has reached the wrong number, cooperate with him and tell him what city you're in and what number he's reached. He may be dialing his call "direct" from another city or state and your giving him this information will aid him in telling the operator what has happened. By doing this, you'll be assisting another telephone user. If you hear the "dial tone" when you answer a call, you'll know there is no one on the line . . . the connection that was established with your line has been released.

After You've Dialed

Most people try to answer the telephone immediately . . . but it can't always be done. Wait a full minute, or about 10 rings, before you decide "nobody's home." This way you can often avoid making a second call.

Telephone Signals You Should Know

THE "RINGING" SIGNAL—Within a few seconds after you complete your dialing, if the line is not busy, you will hear the "ringing" signal which tells you that the called telephone is being rung. This is an interrupted "burring" sound.

THE "BUSY" SIGNAL—By signaling you with a "buzz-buzz-buzz" sound, the dial equipment will tell you (shortly, after you finish dialing a number) when the telephone you are calling is in use. When you hear this "busy" signal, be sure to replace the receiver before trying your call again—or placing another call.

THE "NO-SUCH-NUMBER" SIGNAL—When you hear an interrupted "buzz buzz — — buzz buzz" sound, which indicates that you have dialed a nonexistent number, replace the receiver, and verify the number by looking in your telephone directory.

THE "BEEP" TONE—If you hear a brief, high, almost musical note on your telephone line while you are talking—a sort of gentle "beep" repeated every 15 seconds or so—you will know that the person to whom you are talking has a recording machine which is making a record of your conversation.

The signal is produced automatically by the device used to connect the recorder to the telephone line, and it is provided by the telephone company for your protection.

If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. The "beep" signal stops when the recorder is disconnected.

Use of a recorder without this signal is unlawful.

FROM COIN TELEPHONES

Local Calls

1. Deposit one dime or two nickels (One nickel won't work).
2. Listen for dial tone
3. Dial only five digits of number as listed in this directory

For Assistance . . . . . Dial "Operator"

Out-of-Town calls . . . . . See Pages 3 to 6

Long Distance . . . . . Dial 110

If you get a busy signal or no one answers, just hang up. You will not be charged. Your money will come back.

For Your Protection . . . Our Employees Carry This

Naturally, our customers want to take every precaution to prevent unauthorized persons from entering their homes or places of business.

For your protection, telephone employees who visit the public, carry identification cards with their names and photographs which they will gladly show you. If you have the slightest doubt about anyone who calls "from the Telephone Company," *ask to see his credentials.*

CALLING AN OUT OF TOWN PHONE?

Here's How To Save Time and Money

You'll save time from the start if you give your out-of-town calls to the right operator. By checking the lists on the next two pages you can be sure of placing your call correctly. And you'll find some time and money-saving tips on placing long distance calls on this page.

3 Ways to Save Money on Long Distance Calls

1. CALL STATION-TO-STATION if you are willing to talk to anyone who answers. Charges begin when anyone answers at the called telephone or private switchboard. Station-to-station rates are lower than person-to-person rates. But . . .
2. CALL PERSON-TO-PERSON if you want to talk to a particular person. Just tell the operator you wish to talk to a particular person.
3. PLACE YOUR CALL AFTER 6:00 P.M. ON WEEK DAYS or *any time* Sundays; you'll make a substantial saving. Rates are also reduced on Thanksgiving, Christmas and New Year's.

   On calls within Indiana the reduced rates apply to "station" calls where the initial period rate is 40c or over and to "person" calls where the initial period rate is 60c or over. Reduced rates on calls to telephones outside of Indiana apply to "station" calls where the initial period rate is 45c or over and to "person" calls where the initial period rate is 65c or over.

Tips for Saving Time

You'll get faster service if you give the details of your call to the Long Distance operator like this:

FIRST Give her the name of the town and state you are calling. Then the telephone number, if you know it; EXAMPLE: "Detroit, Michigan—WOodward 5-3456". If it's a person-to-person call, also give the operator the name of the person you want.

SECOND If you don't know the telephone number, give the name and address and tell the operator whether it's a station-to-station or person-to-person call.

THEN Give your telephone number when the operator asks for it—and hold the line unless the operator says there will be a delay. Most long distance calls go through while you wait.

SPECIAL CALLS YOU CAN MAKE

OVERSEAS CALLS—You may talk by telephone to any one of more than 90 countries, territories and dominions throughout the world. Dial "110" and place your call in the usual way.

SHIP-TO-SHORE CALLS—Certain ships in harbor or inland waters and on the Great Lakes or high seas may be reached by telephone. Dial "110" and place your call in the usual way.

COLLECT CALLS—If you place a call "Collect", and it is accepted on a "Collect" basis by the person you are calling, it is paid for by him instead of you. To place a "Collect" call, dial "110."

The charges are the same as for other out-of-town calls except there is an additional charge on "station" calls when the regular rate is 25c or less, (not including federal tax).

Gary, Ind.

CALLS TO ENTERPRISE NUMBERS—For your convenience, some out-of-town firms list a special telephone number with an "Enterprise" exchange name. Charges for Station-to-station calls to these numbers are paid by the person you are calling, without having to place your call "collect." Just dial your regular operator or "110" and ask for the Enterprise number.

CALLS TO VEHICLES—You can now telephone to or from properly equipped vehicles operating within mobile service areas.

Calls can be made to or from any telephone reached by the Bell System.

To call a vehicle, dial "110", and tell the operator you wish to place a mobile telephone call.

a neighborly party line

Just as much as the people next door or across the street, the folks on your party line telephone are neighbors. Maybe as the saying goes, you wouldn't know them if you fell over them, but chances are they are folks with a family to raise—a household to manage—calls to make—very much like you. As a matter of fact, *you* are some one's telephone neighbor.

Well, the best party-line service for *all* depends on courteous, cooperative use of the line by *all* the party-line neighbors. So—here's how you can do your part.

How to be a GOOD TELEPHONE NEIGHBOR in 6 Easy Lessons

Answer Promptly

This will insure receiving all calls intended for you and will prevent possible annoyance to another family on the line.

Take a Breather

A "breathing spell" between calls gives your neighbor a chance at the line. It also permits incoming calls to come through.

Listen Before Using

Make certain that the line is free before attempting to call a number. (In the case of dial service, listen for the Dial Tone. If you hear successive clicks, it means that someone else is dialing a number. Wait until they stop; then explain to the party that you have interfered with his dialing. And hang up.)

Replace Receiver Properly

If you don't, the line is just as "busy" as if someone were talking on it. Incoming calls are blocked; and eventually no one can reach the operator. And when you find the line already in use, the neighborly way is to hang up gently.

Tell the Children How

Teach 'em young how to use the telephone—to be considerate of others on the party line. . . . not to talk unnecessarily long.

Give Way in Emergencies

If your neighbor says the line is needed for an emergency, cut the call short and give the right-of-way. You might otherwise always regret it.

To call ANOTHER PARTY on your line

If you want to know who else is on your line, dial 114 for "Repair Service".

On Two and Four-Party Lines

When calling another telephone on their line, two and four-party line customers dial a special code number to ring the desired telephone—*not* the number as listed in the directory for that party.

If you are a *two-party line subscriber*, use the code 1191 to call another party on your line. If your number begins with TUrner 4, or TUrner 7, however, the code is 1-1912.

If you are a *four-party line subscriber*, dial 114 ("Repair Service") and give your telephone number and the name of the party you wish to call. "Repair Service" will then tell you the proper code number to dial. Make a note of that code number for future use.

How to Place Your Call

1. Dial the code and hang up your receiver to allow the other party's bell to ring.
   Your bell will also ring at intervals indicating that the other telephone is ringing.
2. When the ringing stops, you will know the other party has answered.
3. Remove your receiver. Proceed with conversation.

If your party does not answer within a reasonable period, remove your receiver for a few seconds in order to clear the line. Then replace the receiver.

Attractive Personal Directories

A copy of a personal telephone directory is yours for the asking. The directory is handy for listing your frequently called numbers—your friends', business associates', numbers for places where you shop, and so on. For a copy of the directory, just call your Service Representative at the Business Office.

This small, personal directory will save you time in calling. Be sure, however, to keep your personal list of numbers up-to-date by checking it with each new directory issue.

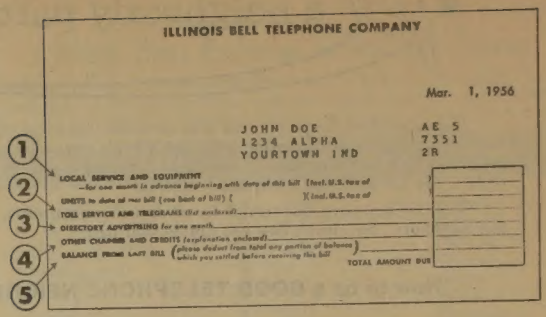
your telephone bill



THE DATE ON YOUR BILL

Telephone bills are not all sent out at the same time. For example your bill may be dated the 11th of each month, while that of a friend may be dated the 21st. These "staggered" billing dates help our Accounting people do a better, more efficient job for you. It takes about a week from the time the bill is dated to compute the charges and mail it to you.

EXPLANATION OF CHARGES

① ***Local Service and Equipment***

Covers the monthly charge for your local telephone service (including *unlimited* calling within your local calling area) and for any additional equipment, such as extensions. These charges are billed to you for a month in advance, starting with the date on the bill.

② ***Toll Service and Telegrams***

Total of charges for telegrams and for long distance calls including collect calls which are listed on Statement "A" enclosed with your bill.

③ ***Directory Advertising***

If you have contracted for directory advertising or street address directory service, the monthly charge made by The Reuben H. Donnelley Corp. will appear on this line.

④ ***Other Charges and Credits***

This includes non-recurring charges, an explanation of which is enclosed with your bill.

⑤ ***Balance from Last Bill***

This includes any charge or credit carried over from last month or amounts paid too late to be credited to your bill.
